

CPV Valley Energy Center

Economic Benefits

\$1 Billion

The amount of economic benefit the CPV Valley Energy Center will bring to the local economy.

Create New Jobs

Building the CPV Valley Energy Center will create 400–500 construction jobs and 25 permanent positions in Orange County.

\$400 Million in Savings

The CPV Valley Energy Center is estimated to reduce wholesale electric costs more than \$400 million a year as a result of new generation in the new capacity zone.

Lower Taxes

\$47 million in additional property tax revenue generated from the CPV Valley Energy Center will help ease local tax burdens, provide funding for infrastructure, and more.
